Professional Summary

Motivated and detail-oriented Data Science student with a strong foundation in data analysis, statistics, and machine learning. Skilled in Python, SQL, Tableau, and statistical modelling with experience developing scalable data-driven solutions. AWS Certified Cloud Practitioner eager to contribute analytical skills in a data-focused role.

Education

Noida Institute of Engineering & Technology, Greater Noida **2023–2027**
B.Tech – CSE (Data Science)

Dr Bheem Rao Ambedkar Intermediate College **2021**
Class XII – PCM (UPMSP)

Dr Bheem Rao Ambedkar Intermediate College **2019**
Class X – UPMSP

Relevant Coursework: Machine Learning, DBMS, Statistics, Data Structures

Technical Skills

Programming Languages: Python, SQL
ML & Data Science: Pandas, NumPy, Matplotlib, Scikit-learn, Machine Learning, Statistical Modelling
Visualization: Tableau
Database: SQL, DBMS
Cloud: AWS
Soft Skills: Project Management, Time Management, Analytical Thinking

Projects

Multi-Agent AI Platform
LangGraph — RAG — Redis — MERN — Docker

- Built a **multi-agent AI platform** using LangGraph to handle complex user queries through specialized AI agents.
- Implemented **RAG-based information retrieval** to generate context-aware responses from external knowledge.
- Integrated **Redis for conversation memory and caching**, enabling efficient management of previous interactions.
- Developed a **MERN-based full-stack interface** and containerized the application using Docker.

Weather Forecasting Dashboard
Python, Pandas, NumPy, Matplotlib, Tableau

- Designed an end-to-end weather forecasting system using Python and Tableau.
- Processed multi-year weather datasets using Pandas and NumPy.
- Applied time-series analysis and statistical modelling to improve forecasting accuracy.
- Automated preprocessing pipeline, reducing manual effort by approximately 40%

Certifications

- AWS Cloud Architecting – Amazon Web Services 2024
- Programming in Python – Infosys Springboard 2024
- Data Analytics – Deloitte 2024

Achievements

- Earned three industry certifications from AWS, Infosys and Deloitte while pursuing B.Tech.
- Built a complete weather forecasting and visualization system independently.
- Maintained strong academic performance in Data Science and Machine Learning coursework.
